Roger Select™

Roger On™

Need more help in challenging listening situations like meetings or conversations in noise or over distance? Let's discuss if a Roger™ device could be a good fit for you.

MAKE A CONNECTION

Being able to interact with our digital world is more than just convenient, it's vital. Hearing aids on the Blu platform seamlessly connect via Bluetooth®, so you can stream audio, calls, or digital assistants directly into your hearing aids, controlling your media with just a tap.

PERSONALISATION AT THE TOUCH OF A BUTTON

Make your hearing journey your own with easy personalisation. The Remote Plus app allows you to boost speech or listening comfort in the moment, as well as select and customise pre-set programs designed for your life. And your hearing care provider can make adjustments remotely, so you can have an excellent listening experience without visiting their office.

Scan to download the Remote Plus app.

Explore the technology levels

Hearing aids on the Blu platform come with different technology levels. We'll work together to choose the one that best matches your listening lifestyle and needs.

Level 9 ★★★★★	Level 7 ★★★★	Level 5 ★★★	Level 3 ★★	WHAT'S INCLUDED	WHAT YOU'RE MISSING
7 environments	6 environments	4 environments	2 environments	Level 9 ★★★★★ Premium performance in 7 environments and our most sophisticated features that let you focus on speech and know where it's coming from in crowds and background noise. Plus enjoy cues about where sounds come from in quiet as well as delightful music automatically.	Nothing. You've got everything you need.
 Noise	 Conversation in noise	 Quiet	 Conversation in a crowd	Level 7 ★★★★ Advanced performance in 6 environments with a great feature that will help you focus on speech coming from the front and sides in challenging situations, improved awareness of where sounds come from, plus an automatic music program.	Our most sophisticated feature that helps you understand where speech is coming from in noisy situations while reducing interfering background noise.
 Conversation in noise	 Music	 Conversation in a small group	 Conversation in quiet		
 Music	 Quiet	 Conversation in a crowd			
 Quiet	 Conversation in a small group	 Conversation in quiet			
 Conversation in a small group	 Conversation in a crowd				
 Conversation in a crowd	 Conversation in quiet			Level 5 ★★★ Standard performance in 4 environments that includes a feature to help you to know where sounds are coming from in quiet environments.	The ability for the hearing aids to focus on speech coming from different directions in noisy situations and to automatically engage a music program.
 Conversation in quiet				Level 3 ★★ The essentials in 2 environments. Limited ability to adjust automatically to accommodate multiple, complex listening environments.	Everything else.
