

A free app
lets you use all the
features of TVS 200.

About the Sennheiser brand

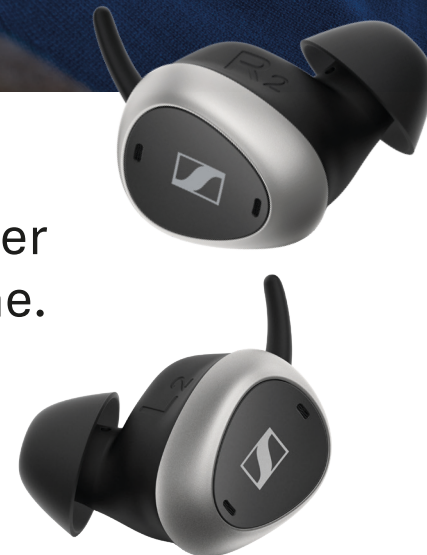

We live audio. We breathe audio. Now and always. This passion is what drives us to develop audio solutions that make a real difference for our customers. Shaping the future of the audio world and creating unique sound experiences – that's what the Sennheiser brand has represented for more than 75 years. The business with consumer electronics products such as headphones, soundbars and voice-optimised hearable technology is operated by Sonova Holding AG under licence from Sennheiser.

TVS 200

TV will never
be the same.

SENNHEISER

Experience TV like never before.

Advanced speech clarity

Choose from 5 Speech Clarity Modes with up to 20 dB amplification for crystal-clear dialogue when watching TV.

Control your TV environment

Ambient Awareness Mode to hear your surroundings. Passive Noise Cancellation to block distractions.

Long-lasting wearing comfort

Compact, lightweight design. Selection of ear adapters for a personalized fit.

Multiple device connectivity

Connect to any TV using the TV Transmitter or to any mobile device for media streaming via Bluetooth.

Personalized experience

Volume adjustment on the earbuds. Use the dedicated app to create a personalized experience.

Hear every dialog

With Sennheiser's Speech Clarity technology, it's easy to understand what people on the TV are saying.

Enjoy clear and easy-to-follow dialogs, without increasing the volume even when the audio is distorted by background noise or actors' mumble. How does it work? Speech Clarity boosts higher frequencies when you use TVS 200, making language easier to understand.

Choose from five Speech Clarity settings to personalize the amount of boost according to your preferences. TV will never be the same, because it's so enjoyable when you don't have to strain to listen.

Distraction free-tv

Set the earbuds' volume to suit your hearing preference and enjoy undisturbed viewing without missing any detail. With TVS 200, others can still watch the TV at a comfortable volume level. While wearing TVS 200, choose between muting your TV to avoid disturbing others or continuing streaming the audio content so people around can join the experience. Plus, the Transmitter allows you to connect more than an earbud device to it.

Clear, comfortable sound

The True Wireless earphones set new standards in comfort and convenience, making even an extended series marathon a joy. Their unobtrusive wireless design, as well as their secure fit thanks to included soft ear adapters with stabilising silicone wings, ensure complete freedom of movement.

Easy to set up for enjoyable TV experience

The pre-paired Transmitter lets you link to your television set and get clear speech with in-sync TV audio. It also now supports Dolby 5.1. from the optical output of your TV. The Dolby 5.1 compatibility with our Transmitter leads to a robust streaming right away. Enjoy a hassle-free setup with no need to re-configure the TV or go through a strenuous installation.

Excellent sound with no interruptions

You can use your TVS 200 earphones for up to 15 hours on a single charge. A further 22 hours of play time is possible by charging them in the TVS 200 charging box. This gives you a total of 37 hours of crystal-clear TV sound without stopping to plug them back in to a power socket. The earphones' charging box can also be charged wirelessly on a Qi-enabled charging pad or more traditionally with a USB-C power adapter.

*Provided the TV has an optical or analogue audio output.
