

Navigating hearing loss

Hearing loss is a common condition affecting more than 1.5 billion people worldwide*. You're not alone, but hearing aids can help you stay connected with the people and things that matter most to you. Smart hearing solutions deliver amazing sound and an experience you're going to love.

A thorough hearing test is easy and painless and it will get you started on your path to better hearing. Visit your local hearing care professional to learn more.

Unitron hearing aids

Choosing your hearing aids

An important part of your appointment is evaluating how well different hearing aids work for you. Your lifestyle, hearing loss and budget are important factors in this evaluation. Your hearing care professional will ensure your aids fit your ears and hearing loss, as well as your individual needs and medical and audiological history.

Which style is right for me?

Unitron hearing aids are designed for wearing comfort and ease of use and offer a full lineup with a variety of styles to suit your needs and preferences. Today's hearing aids are stylish and discreet as well as comfortable — and most styles can be fit for most types of hearing loss.

Write down your notes and questions and bring them with you to your appointment with your hearing care provider:

Receiver-in-Canal (RIC)

Behind-the-Ear (BTE)

In-the-Ear (ITE)
