

# Amplify your style

## Introducing Moxi™ V-RS:

A new, cutting-edge hearing aid  
that is far from traditional

**unitron** Love the  
experience

## A fusion of style and function

Moxi V-RS hearing aids give you a forward-thinking first step into hearing care that combines award-winning design with the vibrant sounds of life. If you didn't think hearing aids could look this good, you might be surprised at what else they have to offer:

- **Comfort** – Moxi V-RS is designed with a sleek, contoured shape, and individual left and right-side hearing aids are built specifically for each ear
- **Convenience** – Moxi V-RS is rechargeable for all-day wear and comes with a compact charging case featuring a magnetic pull insertion feature that makes it easy to insert hearing aids into the charging case
- **Confidence** – These smart hearing aids automatically adjust to keep up with your lifestyle so you can hear more of what you want (like conversations) and less of what you don't (like background noise)
- **Connection** – Imagine streaming audio, phone calls and digital assistants from your favourite devices directly to your hearing aids, and personalising your hearing experience with an easy-to-use mobile app

**Ready to amplify your style? Schedule a consultation online at [www.clinicname.com](http://www.clinicname.com) or by calling us at XXX.XXX.XXXX.**
