

YOU HAVE THE  
**power to  
choose**

Welcome to the  
**Vivante™**  
*experience*

## Ultra Power can be ultra-awesome

Choose to experience more with Stride™ V-UP, our new Ultra Power Behind-the-Ear (BTE) hearing aid offering you the next generation of power, performance, connectivity, and control for a totally personalised experience.

- **Choose clear communication:** Vivante™ technology automatically enhances the sounds you want to hear while minimising background noise and Frequency compression 2 improves your ability to hear difficult, high frequency speech sounds
- **Choose connection:** Effortlessly stream phone calls, music, podcasts and access digital assistants on all your favorite devices with seamless switching between two active Bluetooth® connections, and use with landline phones
- **Choose control:** You decide how you want to hear your world using the convenient Remote Plus app, or choose the optional Remote Control for discreet volume and program adjustments

**Talk to us about the new choices available in performance and personalisation. Schedule a consultation online at [www.clinicname.com](http://www.clinicname.com) or by calling us at XXX.XXX.XXXX.**
