

Amplify your style

Introducing Moxi™ V-RS:
Now you can look as sharp
as you hear

unitron Love the experience

Would you like to turn up the dial on hearing in style?

If you're ready to update your hearing solution to match your unique style and needs, then we invite you to come take a look at Moxi V-RS, a true style alternative in hearing aids featuring:

- **Award-winning style** characterised by a sleek profile and contoured shape designed for your comfort
- **Convenient rechargeability** using a compact charging case with a magnetic pull insertion feature
- **Sound performance** that automatically adapts to your environment, helping you engage in more of life's moments, including conversations in loud noise
- **Personalisation at your fingertips** with the ability to customise pre-set programs, and access support, professional adjustments and more using the Remote Plus app
- **Seamless connections** to your favorite digital devices enabling you to stream audio, phone calls and digital assistants directly to your hearing aids, and switch between two actively connected Bluetooth® devices

Ready to amplify your style? Schedule a consultation online at www.clinicname.com or by calling us at XXX.XXX.XXXX.
