style that fits behind
your ear, built for all-
day wear and effortless
connection—at home,
on the go, or wherever
life takes you.

Insera™ S-R

A discreet, custom,
in-the-ear style that's
made just for you,
with rechargeable
power and reliable
connectivity.¹

¹ All hearing aids above shown in actual size.

Easy to hear

Smile from ear to ear

Smile hearing aids enhance the sounds you want to hear and minimise the ones you don't. They automatically adjust to your environment, optimising sound settings so you can stay engaged in the conversation with less effort in the moment and less fatigue at the end of the day.²

Whether you're catching up with friends in a bustling café or just chatting at home, you can enjoy quiet moments, big laughs, and engaging stories.

Effortless connectivity

Moxi S-RX, Moxi S-R, and Inera S-R hearing aids offer easy, reliable Universal Connectivity³ with instant compatibility for hands-free calls and smooth media streaming across all your Bluetooth®-enabled devices.

Enjoy fast and seamless switching between in-person conversations, phone calls, and streamed media—plus powerful wireless transmission that provides the freedom to walk away from your phone while staying connected and engaged.

Try before you buy

With FLEX:TRIAL™ you can experience the benefits of amplification, with no risk or obligation. By trying hearing aids where you live, work, and play, you can gain peace of mind that you have the right hearing aids for you.⁷

Keep your options open

Start with a comfortable and affordable solution that meets your needs today. Should your listening needs change, FLEX:UPGRADE™ gives you the option to upgrade to more advanced technology, without having to replace your hearing aids.

Choose what fits you best

The Smile family offers flexibility to suit your lifestyle and preferences. With a variety of form factors, technology levels and colours available, you can choose what's right for you.

7 Moxi S-RX and Moxi S-R are the only products on the Smile platform with FLEX:TRIAL.
