

Turn up the volume on your smile, with the new Moxi™ S-R

Dear <Client Name>,

If you've been struggling to hear clearly—or feel your current hearing aids aren't keeping up—it might be time for an upgrade. Whether you're new to hearing aids or looking to enhance your hearing experience, now is the perfect moment to take the next step.

We're excited to introduce you to our latest Moxi S-R Unitron hearing aid, designed to deliver brilliant sound performance, reliable universal connectivity, and all-day comfort.

Enjoy the sounds of your life

Moxi S-R enhances the sounds you want to hear and minimises the ones you don't, focusing on conversations no matter the environment. Whether you're catching up with friends in a bustling cafe or chatting quietly at home, helps you stay engaged in the moments that matter.

It's easier than ever to stay connected

Compatible with all your Bluetooth® enabled devices, Moxi S-R offers stable hands-free calls and smooth media streaming. Plus, you can easily switch between an in-person discussion, a call, and streamed media – all with the freedom to walk away from your phone while staying reliably connected and engaged. With Smile, you can connect to the things that bring you joy every day.

Comfort and dependability with style

Built for all the moments that make up your day, the sleek and stylish Moxi S-R is discreet, water-resistant, and easy to charge at home or on the move.

Ready to smile from ear to ear?
