STYLE AND COMFORT FOR EVERYONE

Moxi B1-312 is part of an award-winning family of the latest user-friendly designs.

Moxi™ (Receiver-in-canal)

Moxi B1-312
is our smallest RIC with direct connectivity and a traditional 312 disposable battery

PROVEN TECHNOLOGY FOR EVEN MORE CLIENTS

A simplified, convenient solution with performance that's true Blu

Moxi B1-312 is an ideal addition to your product portfolio to satisfy clients with uncomplicated hearing needs. It provides the ease and convenience of a lower-essential offering built on the established and advanced Blu platform featuring the Integra OS signal processing system.

Now you can address the concerns of a growing cost-conscious segment while offering a high-performance alternative to over-the-counter solutions. Give them the convenience of Made For All connectivity, the freedom to optimise their hearing experiences with easy personalisation options from a mobile app, all while supporting a smooth transition to better hearing now and in the future.

Future-proof your clients' hearing

Give new wearers a great beginning to their hearing journey by reducing price barriers and preparing them for the future with a hearing solution that can evolve with their needs, preferences and budget. As part of Unitron's FLEX:UPGRADE™ program, Moxi B1-312 can be easily upgraded to a higher technology level at any time without the need to swap hearing instruments.
