

# Make sure you're getting the most from your hearing solution

We hope your hearing aids are providing the best listening experience possible. To be sure, we invite you to visit us for a brief follow-up appointment. Your hearing aids can evolve with you, so if you're engaging in more activities or ready to take on new ones, we can optimise your experience.

If your needs, preferences, or listening lifestyle have changed significantly, we can also offer a free trial of a higher technology level without requiring you to swap your hearing aids.

**Book your follow-up appointment today:**
