About the
Sennheiser
brand

We live audio. We breathe audio. Now and always. This passion is what drives us to develop audio solutions that make a real difference for our customers. Shaping the future of the audio world and creating unique sound experiences – that's what the Sennheiser brand has represented for more than 75 years. The business with consumer electronics products such as headphones, soundbars and voice-optimised hearable technology is operated by Sonova Holding AG under licence from Sennheiser.

SENNHEISER

SET 880/ SET 860

The + in
TV listening.

The + in sound experience at home.

Easy to use – self-explanatory set-up and operation, no need to ask for assistance. An important piece of independence.

Crystal-clear wireless transmission for freedom of movement. Wearers can go into another room and still hear their program.

Innovative Speech Intelligibility reduces TV background noise for optimized speech clarity, so dialog can be followed effortlessly.

Bringing back the joy of TV and home entertainment.

The crisp and clear sound of TV and radio, which is so often lost on older ears – it is back!

Made in Germany, extremely easy to set up and use, seamlessly switching between two audio sources (SET 880), they are comfortable to wear and provide great wireless sound, catering to the needs of mature ears. Making them feel younger again.

Living life to the fullest

If you're used to living life to the fullest, you won't want to experience anything less. Now you can enjoy sound the way you want again thanks to Sennheiser. Set 860 and Set 880 high quality models harness leading edge wireless technology to provide crystal clear, enhanced sound and let users effortlessly tailor the audio experience according to personal taste and changing hearing needs.

Set 860 and 880 represent the ultimate in everyday usability, combining brilliant durability with simple fuss free ease of use. They help give back independence while making it possible to enjoy viewing TV with others too – they watch TV at normal volumes while you enjoy a personalized sound experience! It's now effortless to catch every word of your favorite movie!

The lightweight under-the-chin headset applies no pressure to the head, adjusts automatically as you put it on, and does not interfere with glasses or your hairstyle.

They also feature fewer, larger buttons, easy to understand LED reminders to notify of charge and wireless connection status at a glance, and also automatically switch on/off when needed. This breadth of careful, smarter design features creates an assistive listening system that is effortlessly simple to set up and use.

Advanced wireless technology ensures a stable connection to the docking station within the range of up to 70 m (200 ft) It has a playing time of up to 18 hours from a single charge and thus will accompany you even through the longest TV sessions. The battery recharges automatically when you put the headset on the docking station.
