

Never miss the big moments in life

Dear <Client Name>,

Big moments in life happen at any time. The dinner table comment that erupted in laughter. The big idea discovered during the work meeting. Whispers in your ear from a grandchild that just hopped into your lap. These memories are what makes life worth living. And you don't want to miss any of it.

Introducing a new family of hearing aids – Moxi™ Blu.

Get the most out of every conversation

Moxi Blu hearing aids automatically adjust on the fly, no matter where you go. Blu technology works behind the scenes so you can hear the way you want to hear, even in noisy environments, so you can always be part of the conversation.

Make adjustments in any environment

Different circumstances call for different hearing needs. With Moxi Blu devices, you can take advantage of optional features that help boost performance no matter where you go in life.

Connect your hearing aids with your devices

Connectivity is king in the digital world. These new hearing aids make it easy to stream your favourite audio, receive calls and control digital assistants, all with a simple double tap on your ear.

Designed to be discreet and comfortable

A properly fit hearing aid is one you forget you're wearing. Moxi Blu devices are discreet and rechargeable, with a multi-function button for convenient control and a full day of listening on a single charge.
