

Remote Plus app

Get ready to
Love the experience

Co-branding here

With the **Remote Plus app**, personalisation and convenience are in the palm of your hand. Get timely tips and advice, customise your sound and even choose how you receive hearing care. Everything you need is right there in your smartphone.

At Unitron, we empower people with life-enhancing hearing experiences that fit seamlessly into their world. Our sound performance technology, experience innovations, and intuitive design work perfectly together for unmatched personalisation and optimisation. Because everyone deserves to **Love the experience**.™

HEAR THE WORLD

unitron™ **Love the experience**

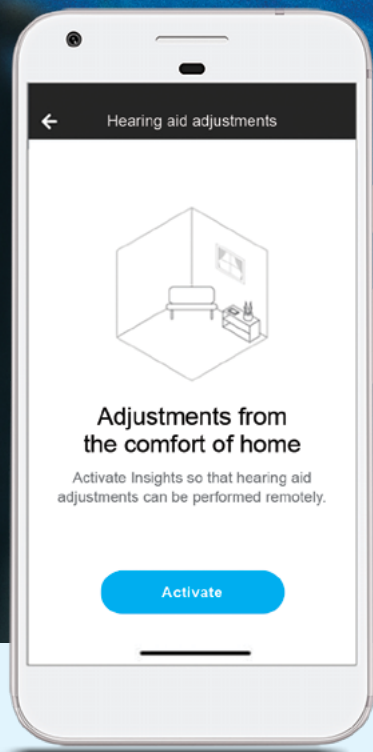

A Sonova brand

Your listening experiences are unique and sometimes unexpected. So, we asked ourselves, how can we make your hearing experience even better?

Answer:
the **Remote Plus app**.*

*For the use of the Remote Plus app, Unitron hearing aids with Bluetooth® connectivity are required. The Remote Plus app works on Apple smartphones with iOS 12 or newer and Android smartphones with version 7 or newer.

Get started

To get started, search for 'Unitron Remote Plus' on the App Store or Google Play and follow the on-screen prompts after launching the app. It's as easy as that!

Easy personalisation

Now you can personalise your hearing experience with [customised](#) features designed for your specific needs. The Remote Plus app allows you to boost sound clarity and listening comfort in the moment, as well as select and customise pre-set programs designed for your life.

With the equaliser feature, you can adjust the bass, mid and treble frequencies to suit your needs. And finally, adjustments from your hearing care provider can be sent directly to your smartphone, eliminating the need for a trip to their office.

Peace of mind

Get the support you need with [app-based coaching](#), which provides helpful advice for easier day-to-day management and maintenance of your devices as you begin your hearing aid journey. You can also use [ratings](#) and [comments](#) to communicate with your hearing care provider in real-time, giving them valuable information to help fine-tune your hearing experience.

Professional care anywhere

You'll love the convenience and freedom to choose how you receive hearing care with [remote adjust](#). Enjoy professional fine-tuning adjustments from your hearing care provider at home or when you're on the go. Adjustments are easy to make and are sent directly to you via the Remote Plus app.
