

Put the power to
choose in the palm
of their hands

The Remote Plus app delivers a truly personalised experience to every client by empowering them with convenient customisation options.

Simplicity + Personalisation

The Remote Plus app provides a modern, user-centric experience that features:

- A vibrant, user-friendly design that encourages client engagement
- Intuitive icons and compelling pictures for the app's features and programs
- Seamless and efficient navigation that reduces user taps for in-the-moment personalisation
- Smooth screen flows and enhanced accessibility features

Your clients can choose how they want to hear the world, plus how they like to interact with the app using the following personalisation options:

- Comfort and clarity optimisation, volume adjustments and program selection all from the Home screen
- Simple adjustments of situation-specific programs and features for unique circumstances and preferences
- The ability to customise program names and choose between program photos and icons
- Two app modes to choose from: Advanced and Classic

Advanced mode

Classic mode

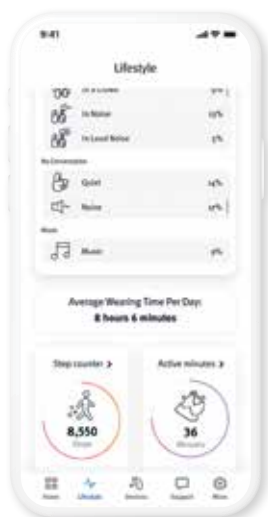

It's all about the experience

Download the app and try it for yourself using demo mode:

*For the use of the Remote Plus app, Unitron hearing aids with Bluetooth® connectivity are required. The Remote Plus app works on Apple smartphones with iOS 15 or newer and Android smartphones with version 8.0 or newer.

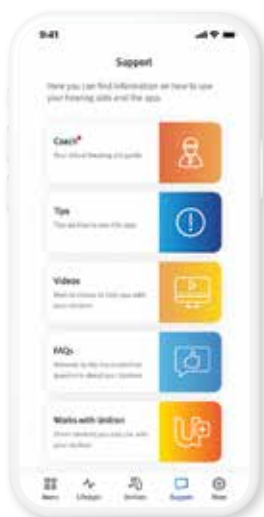

Using the innovative tools found in the Remote Plus app, you can provide more personalised hearing care to your clients along every step of their journey from fitting through ongoing support.

Lifestyle data

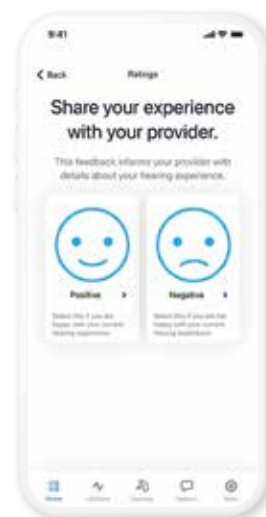

With an expanded view of **Log It All** data, your clients get a clear picture of their listening lifestyle allowing them to make decisions with confidence. The Remote Plus app also features an activity tracker and step counter.*

*Availability may be limited by product style.

Everyday support

Send your clients home with confidence knowing they have everything they need right at their fingertips. The app features support resources including how-to videos, tips, and frequently-asked questions, ensuring your clients receive guidance for the day-to-day maintenance of their hearing instruments through **Coach**, the app's virtual hearing aid guide. Messages are delivered based on their individual journey, accessible anytime by clicking on Coach in the Support tab.

Connected care

Stay connected to your clients' personal hearing journeys with **Ratings** in real-time that alert you to their successes and additional hearing needs. Using the Remote Plus app, clients can submit their in-the-moment impressions of any listening situation. You can respond to their feedback with Remote Adjust so they don't have to rely on recall at their next appointment.

Unitron makes life vibrant with amazing hearing solutions designed to make the experience easy. Because everyone deserves to **Love the experience.**™
